Hardy Field Seeds For The Northwest

COSSACK ALFALFA—The Greatest Of Them All

Professor N. E. Hansen's Wonder Plant

This variety of alfalfa is well known to all. It is perhaps the greatest of forage plants, and every farm should have a pasture and hayland of it. There are a number of alfalfas grown, but Cossack is the marvel of them all in hardiness and forage production.

It is absolutely hardy on the most exposed prairie, and does well and produces an abundance of forage and seed in the driest years. It will outyield other varieties of alfalfa and is harder than any of them. Prof. N. E. Hansen, the plant wizard, introduced this alfalfa from Siberia, in an eight inch rainfall country which often gets 60 degrees below zero in the winter with little or no snow.

He has added millions of dollars of value to the farms of the northwest by this one kind of alfalfa—Cossack. Extensive planting of this kind of the alfalfas will pay you big dividends in return. As there is a ready market for the seed at a good price and the surplus hay you have can easily be sold at top prices.

Plant 8 to 12 pounds to the acre for a solid field of alfalfa or less per acre according to the percentage you want in a mixed pasture.

Top Grade Seed—10 lbs. \$2.50; 25 lbs. \$6.00; 100 lbs. \$22.50; 150 lbs., One Full Sack, \$32.00

GRIMM ALFALFA

A very popular and good general purpose alfalfa. Hardy and an abundant producer of fine large crops of succulent stems and foliage. A great hay and pasture alfalfa and a heavy seed producer. As a money maker per acre, with hay or seed Grimm is a real big paying investment.

Top Grade Seed—10 lbs. \$2.00; 25 lbs. \$4.75; 100 lbs. \$18.50; 150 lbs. \$26.00

DAK. NO. 12 ALFALFA

A good hay crop alfalfa. Generally hardy thruout the northwest. Very popular for use in seeding mixed pastures and hay lands.

Top Grade Seed—10 lbs. \$1.75; 25 lbs. \$4.25; 100 lbs. \$16.50; 150 lbs. \$23.00

SECOND GRADE ALFALFA SEED

Though free from noxious weeds and of high germination, some minor defect keeps us from putting it in with our best grade seed.

PRICES for Cossack, Grimm, and Dak. 12: \$5 00 per 100 lbs. LESS Than Top Grade Seed.

BARGAIN ALL ALFALFA MIXTURE—That Is A Real Alfalfa Buy!

A Genuine Value At A Real Low Price

This is a mixture of about even proportions of Cossack, Grimm, and Dakota 12 Alfalfas. It gives the combined merits of all of them, and is a wonderful combination to use in a hay meadow or mixed pasture.

It is made up from our small odds and ends of seeds which are not large enough to be offered separately or which for some minor defect can't be sold as top or select grade seed. The seed is of choice quality and all right in every way for general seeding purposes. It is free from noxious weeds, though it may have considerable discolored seed in it, but it will give you good results. It really gives you more seed value per dollar than any other seed and is a money saving, money making investment for seeding in your hay land or pasture.

10 lbs. \$1.25; 25 lbs. \$2.50; 50 lbs. \$4.50; 100 lbs. \$8.50; 150 lbs. \$12.00

Prof. N. E. Hansen And A Single Plant Of Cossack Alfalfa

HANSEN PROSO—The Wonder Grain!

The Best Catch Crop For The Northwest—Matures In 60 Days

Can Be Planted Later And Will Stand More Dry Weather Than Any Other Grain

Hansen Proso was introduced along with many other varieties of Proso from Siberia by Prof. N. E. Hansen. It was then selected for white seed, large kernels, and the greatest productiveness.

It is extremely valuable as a catch crop even for the north, as it will mature in 60 days and may be sown after other crops are planted even after they show signs of failure. Though it does best when sown in June, it may be sown in July and still mature a good crop of grain. It may even be sown after removing an early crop of oats or barley and thus raise two crops off from the same ground in one year. It often yields 300 to 500 fold of good clean grain, weighing 60 to 64 pounds per bushel.

The seed is round and several times the size of ordinary millet. It grows in a sprangley head, resembling oats. The color of the inner kernel of grain is white. Hansen Proso is suitable for feeding whole or ground. It is very valuable as a fattening grain for hogs as well as a good general feed for cattle, horses, and chickens. Chickens prefer it to corn or wheat.

Many farmers claim that Hansen Proso will put on a quicker and solid fat than will corn. The U. S. Dept. of Agriculture in their Proso Bulletin give many valuable statistics in this regard.

We do not advise excluding all corn. But we do say that if you will sow about two-thirds the corn that you usually do and sow that extra acreage to Hansen Proso that the increased value of feed will make you a good increase in profit. And right now with the scarcity of seed, there is a demand worth considering in seed grain.

When hulled and ground Proso may be used as a breakfast cereal, similar to wheat or rice, or as a flour in breads and other pastry. Sow 15 to 25 lbs. to the acre. 1 Lb. 25c; 25 Lbs. \$1.50; 100 Lbs. \$3.50; 500 Lbs. \$15.00; 1000 Lbs. \$25.00

Extra Special OFFER!!

Since the larger the order the less expense per unit is required to fill it, we offer the below Free Premium:

Your selection of 50c extra in plants as a

SPRING LIST, 1933

SPECIAL OFFERING SIBERIAN FLOWERING ALMOND Something New And Entirely Different

A wonderful, Flowering Dwarf Almond introduced from Siberia by Prof. N. E. Hansen and is perfectly hardy everywhere. It will bloom for days, way ahead of any Spirea or any other shrub.

Has profuse masses of lovely pink and white fragrant flowers in early spring which completely cover the shrub and form a lovely bouquet of many fine flowers. It has a fine green foliage which turns to a pretty red and gold in the fall.

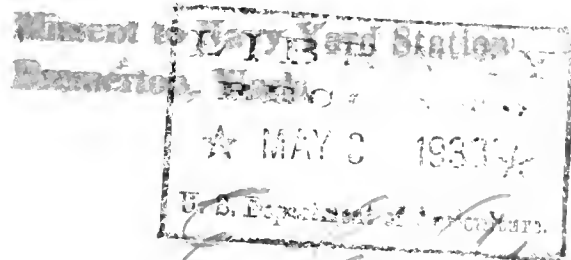

The shrub is of dwarf habit rarely growing over three feet tall, thus making a fine shrub for border work or mixed shrub plantings and an ideal low hedge as its dwarf, bushy growth can be severely pruned which tends to make it produce an even finer foliage and more and better flowers after trimming.

Large Size.....35c Each; 3 For \$1 00; 6 For \$1 50; 12 For \$2.50
 Medium Size.....25c Each; 3 For \$.50; 6 For \$.80; 12 For \$1.50
 Small Size.....20c Each; 2 For \$.35; 6 For \$.60; 12 For \$1.00

HEDGING STOCK OF SIBERIAN ALMOND—Siberian Flowering Almond is of special merit as a low hedge since it is of dwarf habit and requires little care to keep it in a compact attractive condition. And its price makes it the cheapest low hedge you can buy.

Hedging Stock, Large Size10 For 75c; 25 For \$1.50; 100 For \$5.00
 Hedging Stock, Medium Light10 For 50c; 25 For \$1.00; 100 For \$3.50

HANSEN BUSH CHERRY

EASY TO GROW—SURE TO PRODUCE
Highly Productive—Good Flavor—Hardy Everywhere
 Hansen Bush Cherries are the result of over 30 years of untiring selection work by the great plant wizard, Prof. N. E. Hansen of South Dakota State College at Brookings

A new development in fruit culture that is gradually changing the method of plum and cherry fruit production thruout the northwest, because of the immense amount of choice quality fruit they produce on small trees on such a small area of ground.

The fruit is of good flavor and quality to eat fresh, but its most remarkable character is best developed thru the superb jam and jelly it makes. It is of good size and comes in massed clusters, at times almost completely covering the limb. The plants bear from the ground up on low bush like dwarf trees, rarely getting over 4 to 5 feet tall. They may be planted 3 to 4 feet apart and still have plenty of room for natural growth.

Bush Cherries usually commence bearing the year after planting, often fruit even the year they are set out, and annually thereafter. There is a ready market for the fruit, once having been tried.

The bush like trees themselves are of quite striking ornamental value as they are low and bushy and have beautiful silvery colored foliage which turns a bright red and gold in fall. They may be planted close enough together to form a fruiting hedge. Hansen Bush Cherries should be extensively planted everywhere in the back-yard garden, in farm orchard lots, and on the lawn in shrubby groups.

- 1—They are easy to grow and perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear early, heavy, and annually.
- 4—Are dwarf growing and bushy.
- 5—Are excellent for hedges or ornamental shrubs.

Small	.10	.25	.75	1.25

SMALL FRUITS

SIBERIAN BLACK CURRANTS—Undoubtedly the best currant for the northwest, as they are the hardiest currants known, are disease resistant and are the heaviest bearing. They are black-red inside and out, are of giant size for currants and very vigorous growing. Jam or jelly made from them is unexcelled. Prices: 20c Each; 3 For 50c; 6 For 85c; 12 For \$1.50.

PERFECTION RED CURRANTS—The best all around red currant on the market. Prices: 20c Each; 3 For 50c; 6 For 85c.

HANSEN GOOSEBERRIES—Larger and more choice quality than Carrie. Hybridized with some of the enormous gooseberries of Europe. We offer several different varieties but sell as assorted only. All are large sized, hardy and of choicest quality. Prices: 35c Each; 3 For \$1.00; 6 For \$1.75

CARRIE GOOSEBERRY—One of the most productive gooseberries grown. Prices: 20c Each; 3 For 50c; 6 For 85c.

RED ELDERBERRY—Makes the most delicious cordial or elderberry sauce. Prices: 25c Each; 3 For 65c; 6 For \$1.00.

WASHINGTON RUST-PROOF ASPARAGUS—The best for general planting. Prices: 25 For 60c; 50 For \$1.00; 100 For \$1.75.

BETA GRAPE—Good sized. Hardy. Splendid for jelly, etc. Prices: 15c Each; 3 For 40c; 12 For \$1.35.

HANSEN GRAPES—Absolutely hardy. In flavor and quality more like the Concord and other choice grapes that are not hardy here. Fruits large size. We offer several different varieties but sell as assorted only. Prices: 35c Each; 3 For \$1.00; 6 For \$1.75.

LATHAM RASPBERRY—The largest and most productive red raspberry for general use. 10 For 50c; 25 For \$1.00; 100 For \$3.00.

VICTORIA RHUBARB—The best for pie and sauce. Prices: 15c Each; 3 For 30c; 6 For 50c.

STRAWBERRIES
SENATOR DUNLAP—The most popular, largest, and most productive June bearing strawberry. Prices: 25 For 60c; 50 For \$1.00; 100 For \$1.50.

PROGRESSIVE EVERBEARING—Very productive. Easy to grow. Very hardy, quite drought resistant. Prices: 25 For 75c; 50 For \$1.25; 100 For \$2.00.

MASTADON EVERBEARING—The largest everbearing berry on the market. A real money maker if you want to raise fruits to sell. Prices: 25 For \$1.00; 50 For \$1.75; 100 For \$2.50.

FLORISHING SHRUBS
SPIREA VAN HOUTTEI—The most popular of the spring blooming shrubs. A wonderful wealth of fine white flowers in early spring which are ideal in shrub plantings, and make a beautiful flowering hedge. Hardy everywhere and at present the most widely planted ornamental shrub. Prices: Same as for Siberian Flowering Almond. See Front Page.

SPIREA ANTHONY WATERER—A dwarf Red Flowering, summer blooming Spirea. Very fine for border work and low hedges. Blooms almost continuously from mid-June till frost, with flowers in bouquet clusters. Prices: Same as for Siberian Flowering Almond Front Page.

SNOWBALL—A most showy shrub which is covered in late spring with large, white snowball like clusters of flowers. Prices: 35c Each; 3 For \$1.00.

PERSIAN LILAC—The favorite old standby for its fragrant, lavender hued blossoms. This variety does not sucker like the common lilac. Prices: 30c Each; 3 For 75c.

CISTENA—Purple Leaf Shrub For Beauty of Color. Shrubs with different foliage are very desirable. Cistena is in great demand for its rich dark maroon purple foliage and bark; and gives a splendid touch of color in any landscape planting. Flowers are a beautiful dark pink. Prices: 60c Each; 2 For \$1.00; 6 For \$2.50.

CARAGANA—The hardiest and best all around hedge plant. Very drought resistant. Has feathery, dense foliage.

HEDGE ROSES—The most beautiful of all hedges. Something new and very distinctive. extremely hardy. Blooms profusely all during June and most of the summer.

SIBERIAN BUCKTHORN—The hardiest buckthorn. Very dense growing. Dark green, glossy foliage thruout, from early spring till late fall.

HEDGES
SIBERIAN BUSH HONEYSUCKLE—A very pretty hedge plant with bright green foliage. Blossoms are pink and white in early spring, followed by brilliant orange and red berries which are a great attraction to the birds. Very quick growing.

 Gentlemen: For the enclosed \$.....please ship the following order this spring.

Name

Address

Quantity	Name of Variety	Amount

All Prices F. O. B. Brookings, S. Dak. Sacks or Packing Free.

SPECIAL! First Time Offered DAKOTA PENSTEMON—One of the most beautiful native perennials. Reigns serenely in queenly beauty on the driest hills. Its large cup-shaped flowers of about 2 inches in size are a pretty lilac-blue, massed in large terminal racemes. Each 10c; 3 For 25c; 12 For 75c.

FRUIT TREES

ANOKA—The Wonder Apple. One of Prof. N. E. Hansen's Greatest Introductions. Perhaps no other apple in recent times has created so much sensation or has received as much praise as this wonder apple—Anoka! It is very good to eat, large size, bright color, hardy everywhere, and a big producer, but the big thing and best part of all is that it usually bears the second year after planting.

GOLDO APPLE—A true winter apple for the northwest originated by Prof. N. E. Hansen. Keeps in an ordinary vegetable cellar till well into March. Has the rich excellent flavor of Grimes Golden but is larger in size. A very vigorous grower, bearing very young.

DOLGO CRAB—The most wonderful jelly and pickling crab on the market. Fruit good sized, conical in shape with a most brilliant flaming red color. Bears very young. 1 pk. of fruit can make 42 glasses of jelly and 9 qts. of jam without addition of commercial or other fruit pectin,—only sugar and water.

RED FLESH CRAB—A marvelous crab that is RED thruout,—flesh and skin. Sweet eating, productive, hardy. Nothing like it yet introduced. Flowers are also red. Leaves tinged with red.

PRICES ON ANOKA—GOLDO—DOLGO—RED FLESH
 Large.....50c Each; 3 For \$1.25; 6 For \$2.25; 12 For \$4.00
 Medium.....40c Each; 3 For \$1.00; 6 For \$1.75; 12 For \$3.00

 Medium 3-5.....25c Each; 3 For \$.60; 6 For \$1.10; 12 For \$2.00
 Small 2-4.....20c Each; 3 For \$.50; 6 For \$.85; 12 For \$1.50

OKA CHERRY—The best and sweetest of all of Prof. N. E. Hansen's cherry hybrid introductions. This new cherry has developed a wonderful demand and became extremely popular almost over night. Its superb sweetness and beautiful intense, wine-red flesh can't be beat. The fruit is large and comes in clusters.

OKA CHERRY grows in a dwarf, bushy form which makes it easy to harvest the fruit. Ideal for small back-yard gardens. Bears the year after planting and annually thereafter. Hardy thruout the northwest. Has wonderful possibilities as a commercial cherry.

TOM THUMB CHERRY—This new fruit has had a surprisingly quick leap to fame. Though but knee high can bear a bushel of fruit. Exceedingly sweet fresh. Fruit good sized. Flesh dark reddish purple. Hardy far north into Canada.

SANOBA CHERRY—Hybrid of the Sapa and the native sandcherry of Manitoba, Canada. Extremely hardy. Very sweet eating. Dark red fruit.
PRICES ON OKA—TOM THUMB—SANOBA CHERRIES
 Large.....50c Each; 3 For \$1.25; 6 For \$2.25; 12 For \$4.00
 Medium.....40c Each; 3 For \$1.00; 6 For \$1.75; 12 For \$3.00
 Small.....30c Each; 3 For \$.75; 6 For \$1.35; 12 For \$2.50

WANETA PLUM—The giant of hardy plums. Up to two inches in diameter. Highly flavored. Richly colored red skin. The most popular of the Hansen Hybrid Plums and champion of the northwest.

OPATA CHERRY PLUM—Earliest of all plums and famous everywhere for its rich, wonderfully delicious flavor. Flesh light green with purplish red skin. Very productive.

SAPA CHERRY PLUM—Usually the most productive of any of the Hansen Hybrids. Fruit very large. Extra fine sweet flavor with purple red flesh. Bears the year after planting. Extra hardy.

HANSKA PLUM—The superb plum of apricot flavor and fragrance. Very hardy and productive. Has highly colored firm flesh. A good keeper.
PRICES ON WANETA—OPATA—SAPA—HANSKA
